Professional Summary

I am an aspiring graphic designer with a passion for photo manipulation and digital design. Proficient in Adobe Photoshop, Illustrator, and InDesign, I bring strong attention to detail and creativity to every project. I am seeking opportunities to apply my skills in a professional setting, creating visually compelling and impactful designs.

Work Experience

Jet Engine Mechanic

Morris Air National Guard-Tucson, AZ
September 2008 to Present

- Oversees the management, maintenance, and operational readiness of all engine support equipment and specialized tooling. Ensures compliance with safety protocols and technical standards to support efficient and reliable jet engine maintenance operations.
- Perform jet engine maintenance to ensure mission-ready, safe, and serviceable assets.
- Was qualified in both installed and uninstalled engine operations; held all required special certifications.
- Served as an instructor/certifier for propulsion programs, promoting safety, teamwork, and training.
- Led maintenance crews, assess priorities, and allocate resources effectively.
- Continuously train to enhance technical skills, job performance, and safety practices.
